The Monet Boucle Collection

When I was about 15 years old I discovered Claude Monet. My art teacher opened the windows of wonder for me with his beautiful violet colours and painting style....what a combination and I was hungry to see more of his work. I didn't know then the path my life would follow, into the world of colour and texture, and that Monet would accompany me along the way. But accompany me he has, and this collection of handcrafted designer scarves is now my signature collection.

I had ordered my first box of yarn which I excitedly spread on the floor. I sat in the middle of the cones of colour and thought to myself 'what next'? Inspiration came in the form of a book I'd bought about Claude Monet. I draped swatches of the coloured yarn across the beautiful Impressionist paintings. The muse had struck and continues to inspire me daily as I dye and weave.

The Kavanagh Collection

Inspired by County Monaghan Poet
Patrick Kavanagh.

'My Kavanagh Musings'

When I was a young one of about 12 or 13 at school, a poet came to visit. A Cavan poet, called Tom McIntyre. He spoke. I was enthralled. He was there to do a reading in the school that day, probably for the leaving cert students. I drank in his presence...a real living poet....And then....I am aware he is speaking to me, I quickly focus my eyes and he is telling me that I had "a typical Monaghan face, with a 'far away from home' look in my eyes". I think that the poet saw something in me....maybe a wee bit of that Monaghan 'quareness'.

Well this came back to me recently as I thought about Patrick Kavanagh, his poetry and his 'place' in Monaghan. I understand his emotions about Monaghan. And then my thoughts go to a wonderful evening spent at Annamakerrig....and a performance by the Abbey players of 'The Great Hunger', a very special adaptation of Patrick Kavanagh's poem, by none other than Tom McIntyre. That evening we got a lift there with Tommy McArdle, one of 'The Twins' and another great man of words from Monaghan. There followed a 'dance', with music provided by The Glen Miller Legacy. What a night of swing amongst the spuds, and maybe Kavanagh was there in spirit too!
